

OFYR FIRE GUARD RING

AVAILABLE FROM MARCH 2019

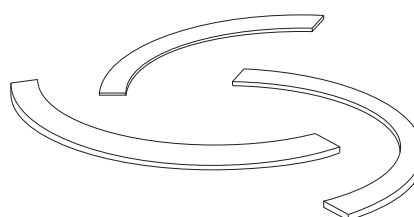

The nicely designed Fire Guard Ring is an accessory that prevents OFYR's hot cooking plate to be touched accidentally. At the same time the 12,5 cm wide rubberwood ring can be used as table for smaller dishes. With six steel brackets it is easy to mount the Fire Guard Ring on the plate and easy to take it off.

After use you should store the Fire Guard Ring indoors.
